

We continue to offer Free Waste Oil Collections

Even during these current difficult times with COVID-19
SOS Oil maintains their commitment to providing

Free Waste Oil Collections

****No Environmental or Transport Charges****

Help us in our efforts to keep moving forward and sustain
one another's businesses and our families, during these times.

With your support, SOS Oil can continue to offer genuine market
competition.

Like so many other in Australia, we are a self-funded, small
independent family owned business and our team are working
harder than ever to maintain our free waste oil collections to
businesses within our service area and further where we can.

Our team have had COVID-19 Infection Control Training to help
maintain everyone's safety.

So if you need a one-off service, or know someone who may benefit
from our free service, we would appreciate it if you contact us
or forward this on and keep us in mind.

Contact us if you have 400 litres or more of
waste oil and are within our service area for your next
free waste oil collection.
